Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

J Farlow

South Carolina Public Service Commission

Dear Public Service Commission,

Duke Energy's investment in coal and nuclear energy is hurting the Carolinas, both environmentally and economically. It makes more sense for Duke Energy to invest in the fiscally responsible renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians, improve the quality of life for my community and keep costs low for thousands of Carolinians struggling to make ends meet. I urge to stop Duke Energy's unsafe, unclean and unfair practices.

Sincerely,

Giovanna Gomez
